Photonics West

Over 22,000 people attended Photonics West last week and there were over 5,000 presentations covering topics from biomedical, optics, biophotonics, MEMS, displays, and more. The 1,300 exhibitors enjoyed a beautiful week in San Francisco, including Materion. Like-minded individuals and companies all converged at this event to network and learn about the latest optics and photonics technologies.

Team Forever Young Suicide Prevention Gala

Precision Coatings was a bronze sponsor at the 2nd annual Team Forever Young Gala Saturday, February 1st and our very own Kevin Downing, Director Product Management, attended the event (far left). Kevin said, "The event was eye-opening and inspiring, I was proud to take part in something that will help spread the message of suicide prevention." Over \$45k was raised at the gala and over the past 12 years Team Forever Young has raise and excess of \$600k for American Foundation for Suicide Prevention. Check out the inspiring video and story links.
