Photonics Spectra Conference

Photonics Spectra's introduces its inaugural online conference, which will feature over 70 webinar presentations discussing the latest trends, technologies, and applications under four tracks - Lasers, Optics, Spectroscopy, and Biomedical Imaging. Precision Coatings and Optics Balzers, together as one company, is sponsoring three different webinars. Please join us in participating in this event:

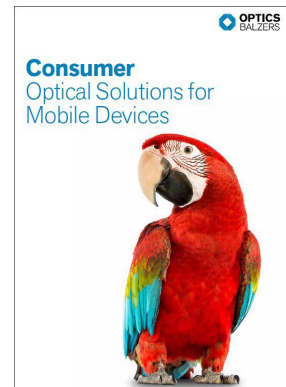

- [Important Considerations When Designing Optics for Manufacturability](#)
- [Multiband and Multizone Filters and Their Applications](#)
- [Biophotonics Technologies Applied at Point of Care](#)

Optics Balzer Introduces Optical Solutions for Mobile Devices

Optical sensors have become ubiquitous in our everyday life. Today's mobile phones are packed with nearly a dozen optical sensors to measure, select, and alter light for different purposes. Our optical components are made for the filtering, guidance, and selection of light for mobile sensing applications. The brochure provides a fascinating overview of the different application possibilities.
