Upcoming Events

Its not to early to be thinking about Photonics West 2020. We are already planning our exhibit at this popular conference. Held at the Moscone Center, in San Francisco, February 4-6, 2020, the conference highlights the latest in photonics and laser technologies.

Check our [event](#) page often for updates.

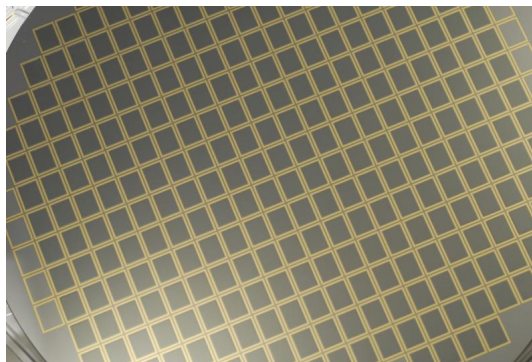

SPIE. PHOTONICS WEST

Product Spotlight NanoGetters™ Technology

Materion's NanoGetters® technology offers a superior alternative for vacuum packaging reliability. It uses proprietary materials and processes to eliminate the problem of stray gases trapped within device packaging. Since it is thin film-based, it is also particle-free.

Summer Fun

It was a scorching 90 degrees on Friday, July 19 when the Ice Cream Truck visited our Westford and Tynsborough, MA locations. At the company sponsored event each employee was able to have two ice creams. Some favorites were Dove, Reese's and Snickers Ice Cream Bar, Chocolate Chip Cookie Sandwich, and Ice Cream Sandwich. It was a great way for employees to take a break and enjoy each other's company.
