Materion Completes Optics Balzers Acquisition

The combination creates a premier optical thin film coating solutions provider with a highly complementary geographic, product, and end market portfolio. Complementary technologies across the electromagnetic spectrum boost the capabilities of the combined business.

“I am looking forward to the collaboration between our teams to support customers globally and deliver leading edge solutions.” said Jugal Vijayvargiya, Materion President and Chief Executive Officer.

Combination Creates a Global Leader in Optical Thin Film Coatings

Innovation

At Materion, innovation isn't reserved for just the newest products. Rather, our team of engineers and researchers is constantly working to find new methods and processes that solve both the problems our customers know they have, and the ones they don't yet know they have.
