Materion Precision Coatings Among Top Teams Selected to exhibit at AFWERX EngageSpace

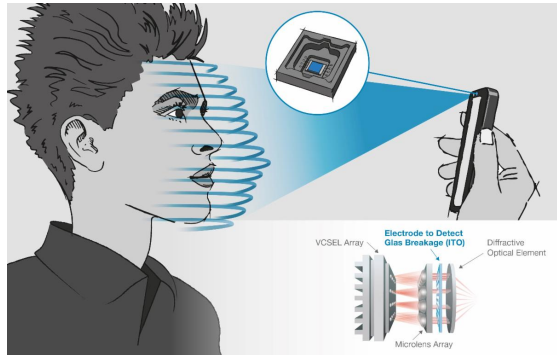

[Visit Our Virtual Booth](#)

[AFWERX](#), the catalyst for fostering innovation within the U.S. Air Force, announced Materion Precision Coatings as one of the 178 top participating teams selected from The AFWERX Space Challenge initiative to exhibit at [EngageSpace](#), a two-day virtual event on September 29-30. [Read More](#).

Product Spotlight Patterned Chrome

Our capabilities in metallic thin film deposition and lithographic patterning enable the fabrication of inter-digital electrodes and meandering wires from Chrome for a wide variety of applications. With our expertise and leading process technology we enable our customers to develop advanced sensing elements, thereby integrating additional functions into their optical systems.

Resistance-controlled, patterned Chrome for sensing electrodes
